The Manamajer Store Hints for a Holiday

WE close to-morrow at twelve o'clock, noon. That makes it a short day for ante-holiday business. The richer opportunity and the greater leisure come to-day;-profit thereby.

The air is full of holiday feeling, and the tension of spirit increases as the national Great Day approaches. Given good weather and good news there will be few Fourths like Monday's. It is not to be wondered at that our store news echoes the feeling of the hour and shouts of a holiday, albeit in a mercantile strain and to mercantile significance.

Some Astonishing Underwear Prices

New Goods at One-fourth and One-half

Do dollar garments at twenty-five cents each strike you as bargains worth looking into? Particularly when we tell you that they are new goods, and right kinds? They are here, scores of dozens of them.

Here's the story. We are closing out a number of lines of Men's undershirts and drawers, and we don't intend to take more than a day to do it. So we have made the loss sharp, and somewhat bitter in order that it may be decisive. Consequently, hundreds of dozens of American and English makes, some plain, some in fancy dots and stripes, some in fancy openwork styles, heretofore priced at

straw, white wings, full trimmed, at \$3. Others, finer, at \$4. How is this? No Summer closing of our millinery work rooms, and that makes the bargains rational. We contribute our profits and more, you respond to the offerings -thus the milliners get steady work. And they are the same milliners that make the highest cost hats—the hats that make Paris jealous of New York.

It's a Carnival. To make it the merrier, we add to these hats of ours two hundred from Paris, from the prices of which we have taken one-third and one-half.

50 Paris Hats, \$12.50 to \$22 150 Paris Hats, \$1 to \$2.50

The force of employes is also reduced about one-third. The new management assumed control at midnight last night, when the last of the Brooklyn elevated trains left the New-York terminal for the night. After that hour only Bridge trains were in use to compete with the trolley-car system. Of the old employes many gave up their places, but a number were discharged. Heretofore the men worked eight hours; now they must work ton. The old scale of pay was for motormen 34½ cents an Lour. Now they receive \$2.25 a day, while conductors get \$2.
